SUNDARA RAGHAVAN K S

B.E.CSE , PRE - FINALYEAR

EXECUTIVE SUMMARY

Computer Science student with experience in Python, Java, C, and C++, with hands-on practice building basic machine learning models and AI-based web applications. Currently advancing skills in developing end-to-end ML systems and AI-enabled web solutions.

EDUCATION

- **2023-2027 :**

Velammal institute of technology
Bachelor's in Computer Science with 8.4 (present) .

- **2022-2023 :**

New Prince Matriculation Higher Secondary School
Computer Science with 86.1%

SKILLS

- Project Management
- Teamwork Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Tamil (Fluent)
- Hindi (Understandable)

AREAS OF INTEREST

- Full Stack Development
- ML Engineer
- Data Structures and Algorithms

CERTIFICATES

- Data Analytics with Python – NPTEL
- Data Structures Using Java – NPTEL

EXPERIENCE

Web Application Developer Intern - AdroIT Technologies (IBM NM):

Developed and maintained scalable MERN stack applications, implemented REST APIs, integrated frontend and backend modules, and optimized database performance in a collaborative development environment.

TECHNICAL SKILLS

- Java
- Python
- C++ , C
- MERN Stack
- Git & GitHub
- MongoDB
- SQL
- Machine Learning (Exploring)

PROJECTS

- **Plantive** – AI-based crop analysis solution using ML (Python, OpenCV). I contributed to model training and backend integration.
- **Safesip** – Safety-oriented web solution developed collaboratively using AI features. Worked on frontend + model integration.
- **Smart Appointment Booking** - Website with secure login, real-time scheduling, and appointment management features.
- **Audio Frequency Comparison & Voice Similarity Analysis** – Built a system to compare audio using MFCC and spectral features with DTW-based similarity scoring and pre-processing for improved accuracy.
- **DSA Learning Website** – Developed an interactive web platform for learning Data Structures and Algorithms with structured topic explanations and problem-solving sections.

ACHIEVEMENTS

- **Smart India Hackathon 2025 — National Finalist**
